

Reconnect.

Sometimes we need help to bring us closer to the ones we love.

It is during these times you need the guidance of a professional.

Rolling Hills Hospital offers behavioral healthcare and chemical dependency services in a compassionate hospital setting with a variety of effective programs to best suit each patient's needs. Our state-of-the-art facility is designed to provide patients and staff with a safe, healing environment.

For more information, call **615.628.5700**, or visit www.RollingHillsHospital.org. For immediate help, call **1.800.832.0388**.

**ROLLING
HILLS
HOSPITAL**

The staff of **Rolling Hills Hospital** believe in and strive to maintain a total therapeutic environment through an individualized treatment approach for each patient and family. Each program is designed to provide services appropriate to the scope and level of care required by the patient population served.

Comprehensive treatment-oriented activities are provided by a multi-disciplinary staff. Clinical staff provide group therapy, family therapy and activity therapy. All clinical services are delivered by qualified professional staff including, but not limited to, psychiatrists, registered nurses, licensed practical nurses, mental health workers,

clinical social workers, a dietitian, pharmacist, substance abuse counselors, and certified activity therapists. Clinical services that are not available within the facility may be provided through referral, consultation or contractual agreements with professionals and other health care facilities.

The goal of treatment is to promote the highest level of functioning for each patient with emphasis on individual, group and family therapy provided at the least restrictive level of care. The patient's symptoms, strengths, family supports and discharge needs provide the basis for care from admission to discharge.

GERIATRIC TREATMENT PROGRAM

The Adult Psychiatric Program is designed for the treatment of patients, ages 65 and over, with primary psychiatric diagnoses. The Geriatric Treatment Program operates 24 hours per day, seven days per week, within a 23-bed unit in an acute care setting.

The program is based in an acute-care setting in a 23-bed unit, and is in operation 24 hours per day, seven days per week.

<u>AREA OF CARE</u>	<u>SERVICE PROVIDERS</u>
